everyday evangelism

the perfect fit

Everyday Evangelism is an exciting Gospel training ministry that will train the people of your church to tell others about Jesus in a way that blends seamlessly with who they are and the relationships they have. It works with their lifestyle; where they go, who they know, how they relate.

You'll get a feel for that from the start because the training is highly interactive with role-play demonstrations, practice time, reviews, and story sharing. It's tailored to a variety of learning styles.

organic, natural, easy!

Everyday Evangelism is easy to learn, fun to share, and nearly impossible to forget. It's a can't-miss method for learning to tell others about Jesus. If there was an all natural way to share your faith, this is it! The training includes a free download of the Conversational Gospel CD/MP3 to augment learning.

shoving or sharing

Some people perceive evangelism to be too confrontational. But that's no strategy to genuinely love people. Everyday Evangelism helps people release their faith with authenticity, because the key to introducing people to Christ is not only learning how to become intentional, but also learning how to become relational. The two go hand-in-hand.

Some individuals can be overly intentional to a point that sharing the Gospel becomes too forced. Others can be too relational to a point of never sharing the Gospel. Everyday Evangelism teaches people the delicate balance.

quick start

Everyday Evangelism is set up so you can get your feet wet before taking a headfirst plunge. Begin by holding a one-day Share Your Faith Workshop at www.syfonline.org. The SYF Workshop as a "Kick Off Event" is an effective prerequisite for a successful Everyday Evangelism training course.

For your convenience, your church can also schedule a Share Your Faith Workshop to be taught by a qualified EE representative at www.syfonline.org.

you'll never be the same

While our Quick Start is a great way to begin, we highly recommend attending an Everyday Evangelism Launch. At the Launch, you'll learn everything you need to begin to equip the people in your church in Everyday Evangelism. Visit www.evangelismexplosion.org. In the menu select 'Ministries' and click on 'Everyday Evangelism.' Then select 'Launch Schedule.'

Whatever method you choose to get started, Everyday Evangelism will help your church become the type of witnessing church that Christ intends it to be. Believers will build stronger relationships and will share Christ simply and confidently in their everyday experience.

a five part series

Everyday Evangelism is facilitated in easy-to-learn modules that include preparatory devotions, classroom instruction, and practical training activities. Scripture verses and transitions strengthen the ability to communicate the Gospel message with ease. Each module is complete in just seven sessions.

Part 1: Share Your Faith Workshop jumpstarts your confidence and ability to share. This "Kick Off Event" is an effective prerequisite for a successful Everyday Evangelism training course.

Part 2: Explaining the Gospel deepens your practice of sharing with on-the-job training experiences from the very first session.

Part 3: Mentoring for Multiplication provides the train-the-trainer dynamic that develops a true ministry of disciple-making multiplication in your church.

Part 4: Means of Growth is an interactive study for new believers. Seven sessions include salvation, Bible, prayer, worship, fellowship, witness, and guidance. (Guidance for leaders who work with new believers is provided).

Part 5: Reasonable Answers for Honest Skeptics is an interactive study to handle common objections with reasonable answers that are easily remembered.
